RE: Invega Sustenna®
Docket No.: FDA-2009-E-0541

Attention: Beverly Friedman

UNITED STATES PATENT AND TRADEMARK OFFICE

In re Ortho-McNeil-Janssen Pharmaceuticals, Inc. :
Request for Patent Term Extension : ORDER GRANTING
U.S. Patent No. 5,254,556 : INTERIM EXTENSION

Ortho-McNeil-Janssen Pharmaceuticals, Inc., the owner of record in the United States Patent and Trademark Office (USPTO) of U.S. Patent No. 5,254,556, filed an application for patent term extension under 35 U.S.C. § 156 on August 6, 2009. A fourth request for interim extension was filed on July 25, 2012. The extended term of the patent expires on October 27, 2012. The patent claims paliperidone palmitate, the active ingredient in the human drug product Invega Sustenna®, which was approved by the Food and Drug Administration for commercial marketing or use on July 31, 2009. An extension of 1,449 days is requested.

The USPTO review of the application to date indicates that the subject patent is eligible for extension of the patent term under 35 U.S.C. § 156. A final determination of the length of the extension of the patent term and issuance of a patent term extension certificate has not been made. Because the extended term of the patent would expire before a certificate of patent term extension can be issued, a fourth interim extension of the patent term is appropriate.

A fourth interim extension under 35 U.S.C. § 156(e)(2) of the term of U.S. Patent No. 5,254,556 is granted until October 15, 2013.
